USER EXPERIENCE

Quad-Core CPU 10" touchscreen panel, 1920x1080 full HD for an e-commerce-like user experience.

The screen provides a menu where the consumer can browse product descriptions, promotional images and videos.

REAL-TIME DATA SERVICE

Magex provides a vending machine real-time management service, thanks to our web-based interface accessible from virtually any kind of device.

You can check real-time selling statistics, stock status, actual stock for every currency denomination.

You will be able to monitor the internal temperature and visualize it in a chart.

MAGEX PATENTED DISPENSING SYSTEM

Magex vending machines boast unprecedented flexibility in managing very different items.

Our **Conveyor patented dispensing system** fits any kind of product, also combining adjacent lanes to move larger products.

End-user can **easily customize lanes** setup to manage effectively any size and shape item to sell.

Moreover, interlocking partitions keep items separate into the same lane.

Our advanced multi-function self-diagnostic tool performs a continuous system health check, starting from lanes operation status before each delivery up to a full system reboot if needed.

LIFT DELIVERY SYSTEM

Our internal lift system gently delivers any kind of items in the withdrawal area under the window.

Magex vending machines are engineered for **delicate, fragile products** of any shape such as glass bottles, hi-tech items, cupcakes, or eggs cases.

If the shopping cart includes more items, **they will be delivered together.**

VISION 14

A SOLID AUTOMATIC KIOSK

The **armored chassis** makes it especially suitable for outdoor employment.

The large deep window stocks a large number of products, endowing a charming display view.
